

Call to Action

MAKE TAXES WORK FOR WOMEN!

Global Days of Action ● March 8-20

Each year, hundreds of billions of dollars of public revenues are lost when **multinational corporations dodge their taxes**. This deprives governments of much-needed resources. Women and girls, specially those living in poverty, are impacted the most.

Regressive & discriminatory tax policies have negative impacts on poor people, mainly women and girls.

Unpaid care work - mostly carried out by women - remains invisible in the economy.

“ We urge women's human rights organizations, social movements, citizens' groups & NGOs to campaign for tax justice to fund women's rights! ”

Our Objectives

- Highlight the tax injustices affecting women
- Demonstrate how tax justice is an integral part of struggles for women's rights
- Make tax justice more relevant to ordinary people and their families
- Show national leaders that their citizens will not accept rising inequalities
- Unite the constituency of ordinary people who oppose the tax injustices
- Make multinationals pay their share

Join our campaign!

- Speak out for #TaxJustice at the **International Women's Day**
- Address your **Finance Minister** with our demands
- Write a **blog**
- Organise **educational discussions** in your community
- Share stories about women & tax injustices in your country!
